DETAILED ACTION

1. Claims 1-14 have been canceled in the preliminary amendment filed 1/22/02.

New claims 15-21 (1/22/02) are pending and under consideration by the Examiner.

Specification

2. In the first line of the instant specification, Applicants are requested to update the status of the prior applications to which the instant application is claiming benefit. The status of nonprovisional parent 09/310,026, should be updated and the expression, “now U.S. Patent No. 6,348,192” should follow the filing date of the parent application.

Furthermore, in the first line of the specification the incorrect Serial No. 09/08,080, filed May 15, 1998, is recited. In addition the specification fails to recite whether the cited application is a continuation, C-I-P or a divisional of the instant application. Appropriate recitation of the correct serial number and status of the prior applications to which the instant application is claiming benefit is required.

Claim rejections - 35 USC § 112, second paragraph

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 15 is vague and indefinite because it recites “a mammalian cell line encoding an interleukin-2 mutein...”. However, this is incorrect because the “mammalian cell line comprises a DNA encoding an interleukin-2 mutein”.

Art Unit: 1646

Claim 20 is vague and indefinite because the Figure number has not been recited.

Claim 21, line 4 is vague and indefinite because it is unclear if the method comprises the steps. It is suggested that the claim be amended to recite "...said method comprising the steps....".

Claims 16-18 are rejected as vague and indefinite insofar as they depend on claim 15 for its limitations.
